This October in Wisconsin has been a feast of color! Fuelled by our cool summer and fall, our leaves have turned slowly from multiple shades of green to soft, subtle orange becoming flame, amber becoming gold, orange becoming bright red, red becoming purple. The ground is carpeted in gold. The Queen of Autumn, the Maple Tree, exuberantly bursts into all the colours of the rainbow. Seeing such a rich display of colour, one believes that God must surely love originality, diversity, and creativity--reminding us that the multi-coloured face of humanity must be cherished by the Creator as well, and wondering why conformity always seem to be championed by the fascist-minded among us. In an age that has fought horrible wars to make someone "free" by making us all the same, may we cherish those who differ from ourselves, and look for them to teach us new beauty, tolerance and appreciation. One remembers an old tale of a town besieged by enemies and saved by one old man who remembered a song sung by a stranger.

One of the things we love most about antiques is that age and time have revealed their unique beauty. In many ways, our shop is a journey through past lives that themselves attain new value and wisdom by the things they pass on to us. Antiques are a legacy of things sent through time to ourselves, and they almost always have something to teach us.

In our shop, you can touch and feel the surfaces of old wood--for example on our wonderful circa 1800 Hepplewhite Cherry Tall Chest with 9 drawers, on sculpted feet and proud ogee curved crown--all original! Where did our walnut Victorian Hall Stand with its turned spindle-hangers and marble table serve to receive top hats, gloves, capes and admiration. Were the Chinese Dragon carved chairs shipped on a clipper ship? The pair of Biedermeier chairs bespeak an early 19th Century German Dining Room. Did that Captain's Washstand, with its sloping desk, cock-beaded drawers serve on an American whaler? What well appointed English room did the pair of Regency tilt-top breakfast tables serve? And what was the setting for the gorgeous and rare Regency mahogany chair with brass trim. Around a corner, we see a breath-taking, large Flemish burlled walnut Bombe Desk with gleaming

serpentine surfaces, a rosewood interior with cubby holes and a secret compartment, on hand-carved eagle claw feet!

Further into the room -- a small dropleaf table with beveled top and concave ends, a luxurious Classical Revival Sofa upholstered in rich leather carved with Eagles feet. The small Desk has hidden charms under its burlled cylinder roll-- cubby holes, shelves, a pull-out writing surface. Nearby, an 18th century Sideboard, richly surfaced in Cuban mahogany, a tall Queen Anne Maple High Boy, Chippendale c. 1780 five drawer Chest of Drawers, two delicious Cherry Wall Cupboards, an American Sheraton Desk, circa 1805, pair of period Queen Anne Chairs, set of six 19th century Chippendale Chairs, Cherry Chest of Drawers with Butler's Desk, Rich mahogany Classical Revival Sideboard or a stately tall European Oak Cupboard (For serving and beautiful storage! If you do not have a maid, a server is a valuable addition to your family!)

On our second floor is beautiful Bedroom furniture including a carved mahogany Classical Revival Bed, a striking tall walnut Bed, several beautiful marble-topped dressers with tall mirrors, and a Victorian Server that would even be lovely in a bedroom.

An 18th Century English Chest-on-Chest, a Rosewood Settee, Empire Sofa, gorgeous expandable three part mahogany Banquet Table, two matching small Corner Cupboards, two marble top tables, a larger Cylinder Roll Desk, a 19th Century German Painted Schrank (wardrobe), Chevalle (mirror on stand), an awesome three part Renaissance Revival break-front Bookcase! A long Sofa Table, magnificent mahogany Six foot C- Roll Office Desk, 19th century birdseye Etagere, walnut Commode.

Descending to our lower level, we step out of the elevator to four handsome drop-leaf tables. Around the perimeter is a gorgeous 20th Century French Rococo, figured maple Bedroom Set with Seven Inlaid and Carved pieces! A spacious mirrored Vanity with built in foot stool and matching Swivel Chair. A large Dresser with three over two drawers, over two side cabinets, with a large carved mirror. A Gentleman's Chest-on-Chest with four over three

drawers and flanking cabinets.

Matched pair of beautiful Maple Beds (could be used as a King size bed!) Matching Night stand. A small matching Bench. Plus we have three other pieces in maple that could go with this set or not: a cylindrical marble inlaid Stand, small carved Mirror, another Gentleman's Chest-on-Chest, and the light blue maple Sofa on 1st floor. As we move through this large room, the second area downstairs has a Baker Regency Revival Dining Table (two leaves) and a set of 6 Hepplewhite Revival Chairs. To the right is a marble topped Dresser-with-mirror, a marble topped dresser w/o mirror, a high backed Walnut Bed, a narrow quarter-sawed oak drop leaf table, walnut Corner Cupboard, an Irish Cupboard. In the middle of the room, a beautiful Walnut Classical Revival Dropleaf Table with Lion's claw feet, Kittinger Oriental Dining Table, and four antique Chinese Side Chairs. Flanking this area are two paint-decorated Oriental shelving-cabinets (nice for sheets or bulky items.) Behind these cabinets are a pair of 18th century Chinese Side Chairs, Wrought Iron Driveway Gate, Brass Bed, Cherry Federal Dresser, Hanging Chairs, Walnut Spool Bed, early Harvest or Work Table. Across from the cabinets are three early Lift Top Chests, hanging chairs, and night stands. Ready soon--a handsome Grandfather's Clock, and much more!

Beautiful China, Glass, Paintings, Art, Lamps and Jewelry are the flowers and jewels of your living area,--a delight to use and to see! They make awesome gifts!
